

2nd Online International Conference on 'Sustainable Business Practices' SBP-23

Date: March 16-17, 2023

organized by

Department of Management Studies

Objectives of the Conference

- The primary objective of the conference is to provide opportunity for academicians, industry experts, and researchers belonging to diverse fields to engage in discussion on issues related to sustainable business practices.

The participants will be able to get acquainted with existing and potential sustainable business practices across the industries.

- The conference will provide a platform to discuss sustainable solutions for the contemporary business problems.
- The forum will facilitate interaction among members inside and outside their own respective disciplines to enjoy the fellowship of other professionals and scholars in the field.

Expected Outcomes from the Conference

The discussion among the international and renowned academicians in the conference is expected to provide following outcomes:
There will be clarity on what should be the main priorities of the managers in future with respect to sustainability of business.
There will be an improved understanding on how to strike a balance between people, planet and profit by the business organizations.
The conference is also expected to contribute in development of research orientation among the budding academicians

Call for Papers and Suggested Themes

Sustainable Practices in Marketing
Sustainable Practices in Human Resource Management
Sustainable Practices in Financial Management
Sustainable Practices in Operations Management
